I. Old Business

- A. Collected donations for Night at the Races Basket and received recognition for the donation in a Facebook post During the discussion it was decided that the Athletic Boosters probably collected more money from our baskets versus spending our resources to place an advertisement in the program. We agreed it was a beneficial way to offer mutual support to the Athletic Boosters.
- B. Mattress sale final results: 47 mattresses were sold earning \$9225 for the Music Boosters and \$1225 in gift cards for students who referred a person who bought a mattress.. Distribution of gift cards and they want to take a picture. I want to include any notes that you might have into a detailed timeline for next year and get that set up so it is self perpetuating
The Mattress Sale is recommended to be around the same time next year.
- C. Piano recital silent auction \$795 Donor restricted for use for piano lessons Mike had a 30 check he collected but was not a part of the total square (we can ring this up to keep our accounting straight 50% split with CSU % Dr. Chang This would bring the total check for Dr. Chang to 412.50 with 412.50 toward a piano scholarship for the Music Boosters
- D. Nominations Committee- For the nominations committee we would need to hold a meeting to set the Nominations Committee
